

# Launch of the National Platform “Algerian HAL” for the Valorization of Scientific Resources

Ministry of Higher Education and Scientific Research  
Directorate-General for Scientific Research and Technological Development

As part of its efforts to enhance and consolidate the scientific resources produced by higher education institutions, the Ministry is pleased to announce the **pre-launch of the national platform "Algerian HAL"**, accessible via the following link:

 <https://dspconnect.cnead-mesrs.dz>

This initiative aims to:

- **Centralize and enhance** theses, dissertations, and scientific publications hosted on university DSpace platforms;
- Ensure **greater national and international visibility** of Algerian scientific production;
- Guarantee **interoperability** with international platforms through the OAI-PMH protocol and a unified metadata format (OAI\_DC).

To support this initiative, institutions are invited to:

- **Update their DSpace platforms** to ensure that metadata complies with project requirements;
- **Complete the following metadata fields** without exception: Publisher, Title, Creator, Subject, Link, Description, Date, Type, Format;
- **Notify the Ministry** upon completion of the update no later than **April 15, 2025**, via the following form:

 [Notification Form](#)

Examples of compliant platforms are available at **University of Ghardaia, University of Constantine 1, and University of Tlemcen.**

 The active participation of all institutions is **strongly encouraged** to ensure the success of this **strategic national platform**.
